HIGH SCHOOL
DESIGN COMPETITION
2022

HIGH SCHOOL STUDENTS

STARTS: FEBRUARY ENDS: AUGUST

ENGINEERING FOR HEALTHCARE & LOW RESOURCE DESIGN

Join Engineering World Health for a design competition program and collaborate on challenges specific to healthcare in low-resource settings!

EWH will seek individual or group student submissions for an independent study that focuses on finding solutions to global health problems. Students will receive briefing materials on the self-led project and process via a Google classroom portal then submit an idea outlining a healthcare problem in developing countries and work with EWH staff to develop a project and hear from experts in the field. Cash prizes will be awarded for winning projects!

Must be a high school student with permission from an adult guardian to participate. $100 entry fee per group.
