VIRTUAL HIGH SCHOOL DESIGN COMPETITION

2021

engineeringworldhealth

ENGINEERING FOR HEALTHCARE & LOW RESOURCE DESIGN

FEBRUARY - AUGUST

Join Engineering World Health for a design competition and collaborate on challenges specific to healthcare in low-resource settings!

- Learn about & work on **innovative designs** for medical technology that can make a difference in low-resource healthcare
- Receive briefing materials on the self-led project via Google Classroom & **submit an idea** outlining a design
- Work with EWH to develop your project & **hear from experts** in the field
- **Cash prizes** will be awarded for winning solutions!

Must be a high school student with permission from an adult guardian to participate. \$100 entry fee per group. Fee waivers available upon request.

Visit <https://ewh.org/hcdc/> for more information and to register!
