- [Guatemala Winter Institute](#) with Rochester Institute of Technology
- [Guatemala Summer Institute](#)
- [Uganda Summer Institute](#)
- [Nepal Summer Institute](#) with Denmark Technical University

ENGINEERING EDUCATION

In its third year, [Kits for the Classroom](#) provided free hands-on STEM education to over 1,100 students in Title I K-12 schools across the United States.

[EWH Kits](#) and accompanying lesson plans are designed to introduce students to [engineering, circuitry, and global health careers](#). EWH offers four Kits suitable for 5th grade through university on [our shop!](#)

UNIVERSITY CHAPTERS

EWH University Chapters provide students with a unique opportunity to connect with a [global network](#) of biomedical engineers and other students who share their passion.

Our 14th [annual design competition](#) received 13 entries from 9 Chapters across 5 countries.

Our free, online [BMET Library](#) continues to grow and support technicians and hospital staff around the world. There are over 3,000 resources in the Library, and 50 new items are added each month.
